

Miami Valley Steel Service, Inc.

Our Focus is the Customer!

Miami Valley Steel Service (MVSS) is a supplier of coil and sheet steel. Founded in 1983, MVSS has successfully grown by specializing in rapid responses to its customers needs. MVSS maintains a modern, climate-controlled processing and warehouse facility with an in-house material testing lab.

Our facility features 320,000 square feet of state of the art steel processing lines. High volume processing capabilities and an experienced technical team make MVSS the single source for slitting, blanking, cut to length, shearing, and edging services.
